Cellusan

FARMIGEA

Lubricating Eye Drops Carmellose sodium 1% w/v

Soothing and long lasting relief from dry eyes
From moderate to severe dry eyes
Suitable for use with contact lenses

Composition: Carmellose sodium (1% w/v), lactic acid, sodium hydroxide, sodium chloride, potassium chloride, calcium chloride dihydrate, water for injections.

What is it?

Cellusan is a sterile, preservative free 1% w/v eye drops, solution of Carmellose Sodium (CMC).

How is presented?

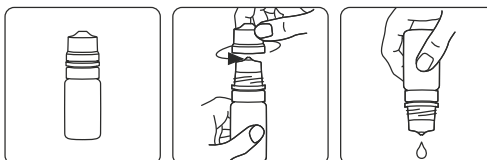

Cellusan is presented as an eye drops in a preservative free bottle of 10 ml.

When should it be used?

Cellusan is used to obtain long lasting and soothing relief from moderate to severe dry eyes. It also provides protection against burning, irritation and discomfort associated with ocular dryness or exposure to environmental factors. The product is preservative free and suitable for use with contact lenses. It may also be placed directly on the contact lenses to make the insertion much more comfortable.

How much to use?

1 drop in the eye one or more times daily, according to necessity.

Precautions and warnings:

- Do not use if the container is damaged.
- The product is for external ophthalmic use only.
- Do not use if you are sensitive to any of the components.
- Do not use after the expiry date shown on the container.
- Do not touch the eye with the tip of the bottle.
- After administration, in rare cases, a slight temporary blurring of vision may be observed due to the viscosity of the solution; it is therefore advisable to wait for a few seconds before any activity that requires clear vision.
- Leave at least 10-15 minutes before administration of any other ophthalmic drugs.
- Once opened, the bottle can be used for up to 90 days.
- To avoid the risk of bottle collapsing, do not deliver more than 30 consecutive drops.
- Keep out of the sight and reach of children.
- Store below 25 °C.
- Do not swallow.
